

our the bankers going to get harrassed at home? How come 2 wks before Feb. we hear about this and it's been going on since Nov.?If banks took better care of their customers they wouldn't leave and the banks wouldn't have to harrass them at home all hrs. and then hear oh it's this time here but it's early morn. in wis.cause they are calling from another state and they have no regards for our time zone. we have a law here and the Fed. gov shouldn.t be allowed to change it. we have no privacy as it is and our freedom is slowly being taken away, Europe is better than us and my boyfriend will atest to that because he is from europe and he wishes he could go back.
